GAS FIRED WATER BOILER
WPSB SERIES 3

Up to 84.1% AFUE EFFICIENCY

- Available in 7 sizes from 75 MBH to 299 MBH.
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples. The Sections and Push Nipples expand at the same rate when heated. By using similar materials instead of less expensive gaskets the boiler maintains a water tight seal over time.

- Advanced Fuel Smart Hydrostat Control: 3 Functions in 1 Control
  1. Temperature limit with LED display and easy dial settings. Diagnostic and function indicator lights.
  2. Low Water Cut-Off (LWCO), protects the boiler from damaging low water conditions.
  3. Boiler Reset, lowers the boiler temperature to save fuel by turning on the burner only when needed. Set-up is quick with no need to install an outdoor sensor; just dial in the number of zones.

- Atmospheric Chimney Vent Boiler with Integral Draft Hood and Vent Damper.
  The Integral Draft Hood reduces the overall height and footprint of the boiler making it ideal for low clearance/space limited installations.

- Cast to Last Warranty:
  20 year non-prorated limited warranty.

- Innovative American Manufacturing.
## PRODUCT SPECIFICATIONS

### RATINGS - NATURAL GAS (D) / PROPANE (DP)

<sup>(1)</sup> Input rating for sea level to 2,000 ft. (610m) above sea level. United States, over 2,000 ft (610m) above sea level. Reduce input rate 4% for every 1000 ft (304m) above sea level.

<sup>(2)</sup> Net AHRI Water Rating shown based on piping and pickup allowance of 1.15. Consult manufacturer before selecting boilers for installation having unusual piping and pickup requirements, such as intermittent system operation, extensive piping systems, etc.

For forced hot water systems where boiler and all piping within area to be heated, boiler may be selected on basis of its heating capacity.

### ELECTRICAL

- 120 Volts AC, 60 hertz, 1 phase, less than 12 amps (15 amp circuit recommended)

### STANDARD EQUIPMENT

- Boiler Control Module: Fuel Smart Hydrostat Temperature Limit, LWCO and Boiler Reset Control with Circulator Relay and Domestic Hot Water Input Override.
- User Display Interface: Temperature LED Display with Dial-type Settings and Diagnostic Indicator Lights
- Combustion: Completely Installed and Wired Gas Control System Consisting of: Titanium Composite Burners, Gas Manifold with Orifices, Automatic Redundant Combination Gas Valve, 24 Volt with Pilot Filter and Regulator Intermittent Pilot Control, Continuous Retry 100% Shut Off, Combination Pilot Burner/Electrode/Flame Sensor.
- Safety: Flame Roll-Out Safety Shut-Off (Fuse Link) and Blocked Vent Safety Shut-Off Manual Reset Disc Thermostat (Spill Switch) with Spare Fuse Link.
- Other: Assembled Boiler with Insulated Jacket, Integral Draft Diverter, Vent Damper, Combination Temperature/Pressure Gauge, Circulator Pump Wired with 5’ Harness for Supply or Return Field Mounting, ¾” Drain Valve, 30lb. ASME Relief Valve.
