Helix VLT

Gas-Fired, Wall Hung Modulating Condensing Boiler

- Up to 95% AFUE
- Built-In Primary/Secondary Piping cuts installation time in half
- Built-In Low Water Cut Off
- 5:1 Turn Down Ratio
- Innovative Heat Exchanger
  - Low Maintenance, Self-Cleaning
  - Designed in the U.S., for the U.S.
  - 150 psi MAWP
Innovative

Because we know what it takes to make a good thing even better...

The Dunkirk Helix VLT “Vertical Laser Tube,” condensing boiler features a revolutionary, vertically mounted helical fin tube heat exchanger, made of 316L/444 stainless steel. This self-cleaning design features wide, smooth waterways that help remove hard water deposits and prevent scaling.

The Helix VLT offers more application flexibility with modulating capacities from 50 to 299 MBH and the H2O Series of Stainless Steel Indirect Water Heaters are a perfect match!

That’s why we added a 299 MBH capacity to our line of high efficiency Dunkirk Helix VLT Stainless Steel Wall Hung Modulating Condensing Boilers and teamed them with the H2O Series - a full line of Stainless Steel, Single & Dual Coil Indirect Water Heaters, Buffer Tanks and Storage Tanks.

Dunkirk H2O Indirect Water Heaters are available in 30 to 150 gallon capacities and feature 316L stainless steel construction and top connections for an easy installation. The H2O is so well insulated that water will lose only a half-degree for every hour on standby. The H2O’s smooth coil design prevents sediment build-up. This durable, efficient water heater is a great value.

Dunkirk is proud to bring you the most efficient, forward-thinking home heating solutions available today.

Efficient

Just look at what you could be saving annually...

Add up the savings with a Helix VLT:

+ Up to 95% AFUE
+ Sealed Combustion
+ Outdoor Temperature Reset*

The increased efficiency of the VLT could save you up to 40% on your heating bill each year.

If you pay $1,800 annually to heat your home, you could save as much as $720 per year.

= That’s $3,600 over 5 years!**

* A factory standard Outdoor Temperature Reset adjusts water supply temperature for best possible fuel economy based on actual seasonal condition.
** Individual savings may vary.

Dependable

Dunkirk holds our products to the highest quality standards and we stand behind them...

Each Helix VLT boiler produced is subjected to a rigorous set of quality control checks before it leaves our factory. Dunkirk test fires each boiler and checks all of the electrical, plumbing, pressure vessel and combustion set up parameters - fine tuning the product’s performance prior to approving the unit for shipment. We even include the final computer generated results for your professional contractor to reference while completing your installation.

Since we go the extra mile to deliver a quality product we offer not only a 15 year limited manufacturer’s warranty, we also back it up with an industry-leading first year $500 Heat Exchanger Labor Warranty.

Our H2O Single Coil Indirect Water Heaters feature a limited lifetime warranty and optional Comfort Plus Parts & Labor warranties are available for all our products.
**Helix VLT 50-200 MBH**

- Integral Condensate Trap:
  - Large diameter
  - Quick connect to condensate drain or pump

- Heat Exchanger:
  - 316L/444 stainless steel fin tube
  - Vertically mounted
  - Self-cleaning
  - 150 psi MAWP
  - Designed in the U.S., for the U.S.

- Non-Metallic Flue Collector:
  - Corrosion resistant

**Helix VLT 299 MBH**

- 299 Dual Diameter Heat Exchanger with polypropylene flue collector

- 316L/444 stainless steel fin tube
- Vertically mounted
- Self-cleaning
- 150 psi MAWP
- Designed in the U.S., for the U.S.

---

**LWCO**

- Factory wired and installed
- Probe-type with test button
- Meets code where required
- Provides added protection

**Control Features**

- 5:1 Turn down ratio
- Easy to understand English text display
- Outdoor reset maximizes fuel economy
- Priority domestic hot water meets changing demands
- Integrated multiple boiler control eliminates the need for costly multiple boiler controls

**Quick Connect**

- Simplified electrical connection and removable terminal block make wiring easy

---

**Top Connections**

- Approved for PVC, CPVC and Polypropylene venting

**Bottom Connections**

- Replacement ready with 1-1/4"piping connections and low pressure drop
  - no high head pump required

**Wall Mount Bracket**

- Bracket included
- Wall mount installation saves space

---

*Built-in primary/secondary piping saves installation time and space*

“Dunkirk installed both primary and secondary pipe work inside the actual unit. I couldn’t believe it! It really is as simple as piping your Supply and Return with one pump, not two because the other is installed in the Helix already, right in the boiler!”

- Sean McCormack

* The DKVLT-200 and DKVLT-299 have an AFUE of 94% and are ENERGY STAR rated products but they do not meet the 95% criteria for 2013 Most Efficient.

(1) 1000 Btu/hr (British Thermal Units Per Hour)

(2) Heating Capacity and AFUE (Annual Fuel Utilization Efficiency) are based on DOE (Department of Energy) test procedure.

(3) Net AHRI Ratings based on piping and pickup allowance of 1.15. Contact Technical Support before selecting boiler for installations having unusual piping and pickup requirements, such as intermittent system operation, extensive piping systems, etc.

General Information

Clearances

(4) Required distances measured from boiler.

(5) Service, proper operation clearance recommendation.
