
XEB Series II

Up to 84.4% AFUE Gas Fired Hot Water Boiler

- Available in 6 sizes from 42 MBH to 225 MBH.
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples. The Sections and Push Nipples expand at the same rate when heated. By using similar materials instead of less expensive gaskets the boiler maintains a water tight seal over time.
- Honeywell High Limit/Electronic Ignition Control.
  - Recessed under the boiler’s protective jacket
  - Digital temperature display and diagnostics
  - Plug in connection for the inducer fan
  - Plug in connection for the system pump
  Control monitors the water temperature and delays the burner starting until residual heat has been transferred. This maximizes efficiency by turning on the burner only when needed.
- Induced Draft Fan - allows flue gases to be pulled through the boiler and exhausted through a chimney or side-wall vent.
- Textured paint Jacket. Small compact design is ideal for low clearance installations.
- Cast to Last Warranty
  - 20 year non-prorated limited warranty
