

ADDENDUM TO THE WIRING DIAGRAM FOR OIL-FIRED CAST IRON HOT WATER BOILERS

The Wiring Diagrams in the Installation Manual, for the Riello Burner have been modified due to an improvement in the Burner. The burner was modified such that it now utilizes an electronic shutter instead of hydraulic. This required an additional pink wire to be added connecting auxiliary to high voltage. The diagrams in this addendum are to be used in place of those in the following installation Manuals: #14683006 rev 1, #14683456 rev 1, #14683454 rev 1, #14683606 rev 1, and #19878.
