
Dunkirk H₂O
Single Coil Stainless Steel Indirect Water Heaters

- Easy to install
- All connections on top
- Low pressure drop
- Magnesium anode rod
- Smooth stainless steel coil
- Welded stainless steel cold water dip tube (factory installed)
- Minimal standby losses
- Limited Lifetime Warranty (Residential), 5 Year (Commercial)
- Stainless steel aquastat well, T & P and drain valve factory installed
- Aquastat control shipped loose

Dunkirk offers a complete line of Stainless Steel Single and Dual Coil Indirect Water Heaters, Storage, Buffer and Solar Tanks. Visit us at www.dunkirk.com for more information.

### General Information

- All ratings are based on 200° F boiler water supply and 50° F cold water inlet.
- See installation manual for ratings at different temperatures and flow rates.
- Specifications subject to change without notice.

#### Standard Equipment

- Smooth stainless steel coil, magnesium anode rod, factory installed stainless steel aquastat well, T & P and drain valve, welded stainless steel cold water dip tube factory installed and pressure tested, Honeywell L4080B aquastat shipped loose for field installation.

#### Options

- (L) Low profile models for applications with low clearances.
- (C) Commercial models with larger tappings for higher flow rates.
- (HO) High Output models available to meet greater demand.
- (XHO) Extra High Output models.

### Certification/Decoding

- Conforms to UL STD 174.
- Certified to CAN/CSA STD C22.2 No. 110-94.
- Dunkirk H2O Single Coil Stainless Steel Indirect Water Heaters
